

## **No consideration of adverse impacts of investment decisions on sustainability factors**

### **NRP Maritime Asset Management AS (“NRP MAM”)**

This document has been prepared for the purpose of meeting the specific disclosure requirements set out in Articles 4 of the Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (**SFDR**).

At this stage NRP MAM does not currently consider principal adverse impacts of investment decisions on sustainability factors within the meaning of SFDR. This is due to, inter alia, the regulatory uncertainty related to the regulatory technical standards supplementing SFDR which are not yet finally adopted or published. It is expected that consideration of principal adverse impacts within the meaning of SFDR will require collecting, measuring, validating and reporting correct and precise data on a number of mandatory sustainability indicators, whereas this information may not be readily available. MAM will on an ongoing basis reassess its position on whether to consider principal adverse impacts on sustainability factors within the meaning of SFDR, based on the availability of relevant data from the portfolio investments.
